## ROMANCE AMID HALOCAUST THAT WRECKED A CITY

"San Francisco," which opens tonight at Cole's Theatre, Bellevue, promises to become one of the most talked-about pictures in many, many months.

First, it teams three of the most popular screen stars for the first time—Clark Gable, Jeanette MacDonald and Spencer Tracy. It is a picture brimming with romance, love, comedy, beautiful music and excitement.

The picture takes us into the seething, mad excitement of the Barbary coast when it was a byword around the world. It takes us into aristocratic Nob Hill, into the old Tivoli opera house, the historic Palace Hotel and other landmarks of old San Francisco—and it takes us through the disaster that leveled a beautiful city to ground thirty years ago, in a series of the most realistic disaster scenes ever filmed.

Clark Gable offers one of his greatest characterizations as Blackie Norton, owner of the most popular resort on the coast. Jeanette MacDonald is superb as the country girl who starts her singing career on the Barbary coast and rises to great operatic heights, only to return to the coast because of the man she loves. Spencer Tracy scores in an unusual role as a kindly priest who chooses the wicked street for his evangelistic work. In the excellent supporting cast are Jack Holt, Jessie Ralph, Ted Healy, Shirley Ross, Margaret Irving, Harold Huber and Al Sheen.

The direction by W. S. Van Dyke and production by Bernard Hyman and John Emerson is outstanding.

"San Francisco" is a picture that MUST be seen.

## GREAT NORTHERN GRANTED CONDITIONAL RIGHT DISCONTINUE

Ottawa, Oct. 12.—Conditional permission for discontinuance of operation of the Crow's Nest Southern Railway's branch line between Fernie and Newgate, B.C., was contained in an order of the board of railway commissioners made public last week.

Conditions attached to the order are that the rails, ties, buildings, bridges and fences are not to be removed for one year, and that the order is based on the understanding between the parties that the Great Northern Railway Company's line from Newgate to Rexford, Montana, is not to be dismantled for one year.

The Fernie-Newgate line is about fifty miles long.

It takes a lot of pluck for a woman to keep her eyebrows in shape.

## BLAIRMORE COUPLE CELEBRATE SILVER WEDDING ANNIVERSARY

A very pleasant surprise party was given by the parents and family of Mr. and Mrs. J. B. Harmer on Wednesday, October 14th, in the United church auditorium, to celebrate their twenty-fifth wedding anniversary.

The tables were beautifully decorated; centred by a three-tier wedding cake, made by Mrs. A. C. Decoux, sister of the bride.

Following the banquet, toasts were given in the following order:

"The King"—Major J. W. Gresham.  
"The Church"—Rev. A. E. Larkie.  
"The Bride and Groom"—Mr. D. MacPherson.

Mr. Harmer ably responded to the latter, and on behalf of himself and wife thanked all present for a most pleasant and happy remembrance.

Mr. and Mrs. Harmer were recipients of many beautiful and useful gifts.

The party broke up about midnight. Mr. E. A. Harper acted as master of ceremonies.

## THE PREMIER AND THE PRESS

On September 10th, 1936, the secretary of the Alberta Section of Canadian Weekly Newspaper Association wrote Hon. Premier Aberhart, inviting him to address the members at an annual convention to be held in Calgary on October 9th and 10th, 1936.

Mr. Aberhart's secretary advised that the Premier could not be at the convention, although it had been pointed out that the Association would gladly arrange for the Premier to address them at any hour during the 48 hours in which the convention was in session.

Premier Aberhart, despite the fact that he had been invited one full month ahead of the convention, refused to meet the editors of the weekly newspapers.

Mr. Aberhart spent Friday and Saturday, October 9 and 10, in Calgary and it was announced that he would deal with the newspapers 'Over the Radio' on Saturday night. Unfortunately the Premier was taken ill and the broadcast was not put over by his voice.

It is a simple matter for anyone to stand up behind a microphone and make statements and charges, but it is the mainly way for any public man to deal with the people? Should not the interested parties be given a chance to present their side of the question?

We venture the statement that had Premier Aberhart met the weekly Editors in convention, he would have gone away with a much higher opinion of the craft than he has had in the past, and many of the points of difference would without a doubt have been smoothed out.

The Premier did not show a very sporting attitude to the press. It might almost look as though he were afraid to meet the editors face to face.—Innisfil Province.

The Blairmore A.T.A. Local renewed its monthly meetings on September 1st, 1936, with last term's president, Mr. S. White, presiding. The election of officers for 1936-37 constituted the chief business, and the following were elected: president, Mr. S. White; vice-president, Miss F. North; secretary-treasurer, Miss G. Frey.—The A.T.A. Magazine.

Joe Rayman, aged 54 years, died in the Coleman hospital, Monday, October 11th. He was born in Czechoslovakia, came to Coleman 23 years ago and has resided there since. His wife is a sister of A. Pondelick, senior, of Blairmore. He leaves to mourn, his wife, four sons in Coleman, Frank, George, Edward and Charlie; and one daughter, Annie, in Kenora, Ontario. The remains were laid to rest in the Catholic cemetery at Coleman on Thursday.

## PREPARATION FOR MUSICAL FESTIVAL

In order that contestants may derive full benefit from the music festival in music, they should study these subjects at least 10 months to the year. It is the person without any preparation deciding to enter the competitions at the last moment who is keeping the festival from reaching its intended standard of proficiency, and not until these courses are taught daily in the public schools will this movement give of its best to the youth of the province.

The festival movement is of an educational nature only.

It is the aim and object of the festival to give young people a chance to improve as concert performers. The course outlined is meticulously graded for children and adults; and if adhered to will continue to develop concert artists in the future as it has done in the past.

The local annual festival will be held on November 2nd, 3rd and 4th in the Columbus hall, Blairmore, marking the twelfth festival since the institution of the Crow's Nest Pass Musical Festival under the influence of Rev. W. T. Young.

## BELLEVUE HORTICULTURAL CLUB OFFICERS RE-ELECTED

At the annual meeting of the Bellevue and District Horticultural, Industrial and Poultry Society, held in the Bellevue school house on the evening of October 9th, which was very largely attended, the entire personnel of the executive were re-elected, and in addition was added Mr. W. J. Harris, of Blairmore, and two ladies to be chosen as the ladies' meeting for that purpose.

The report showed the Society to be in good standing, and the financial report encouraging.

A number of opinions were expressed towards bringing in more entries from other towns. These were left over for the executive to deal with. In the meantime the Society hopes to put on a what drive and dance on the night of Friday, October 30th, for the purpose of raising funds, further announcement of which will be given later.

## OIL AID MINE DEVELOPMENT

Oil is playing a major part in developing the mining resources of Canada's far north.

Five years ago Great Bear Lake in the Mackenzie district was considered too remote for practical development of its mineral riches of radium, silver and gold.

In winter the trip to Great Bear Lake by dog and sled from the northern terminus of the railway at McMurray, 250 miles north of Edmonton, took from a month to six weeks. In summer the 1200 mile trip could be made by water via the Athabaska River, Lake Athabaska, the Slave River, Great Slave Lake and the Mackenzie River, in three weeks. Or the trip could be made by water from Vancouver by the Pacific Ocean, Bering Strait, Arctic Ocean and up the Mackenzie River. This route was seldom used.

Two things have contributed to develop the mining industry in the Great Bear Lake region. One is the airplane now used to bring in food, supplies and personnel, and to carry out ore concentrates. The other is the development of an oil field and the building of a refinery on the fringes of the Arctic Ocean.

Mrs. C. B. Cheesman, of Cardston, was elected president of the Alberta branch of the Women's Amateur Athletic Federation when the organization held its seventh annual meeting in Calgary on Monday. She has been acting president since the retirement of Mrs. W. T. Norris during the summer.

## TEACHING MUSIC IN OUR PUBLIC SCHOOLS

East of here in the Crow's Nest Pass towns, a system of teaching music in the public schools has been put into use, and it would appear that it might be introduced to advantage in the East Kootenay schools. As we understand it, less than two years ago the Crow's Nest Pass Trustees Association was formed with five districts, viz: two town districts, Coleman and Blairmore; one village district, Frank; and two rural districts, Hillcrest and Bellevue. The latter two are called rural districts, but are really mining districts and have little or no connection with farming areas.

A teacher was engaged for the five districts, dividing his time and costs on a prorata basis, as none of the schools felt they could afford the cost of an individual teacher. Mr. W. G. Moffatt was engaged, and the work he has accomplished has been eminently satisfactory. As a matter of fact, he presented ten separate school choruses with an average of 35 voices at the musical festival held in Blairmore at the end of October last year, and received a splendid adjudication. In fact the audience were not only surprised, but delighted with the work accomplished so quickly by Mr. Moffatt. It has been found in the different schools that the children appear to enjoy music more than any other item on the curriculum.

To show that the teaching of music in the schools is not a very costly luxury, figures go to show that the plan costs less than 14½ cents per pupil per month, or to be exact, 14.4½¢ per pupil per school year.

At the musical festival to be held in Blairmore, November 2nd, 3rd and 4th, this year, it is expected that an even larger number of children than last year will take part, due to the fact that the maximum number of voices in the school choruses has now been eliminated and each class may enter every voice available.

The Courier is indebted to Mr. W. H. Chappell, secretary-treasurer of the Crow's Nest Pass Trustees Association, for the greater part of the information given herein.—Cranbrook Courier.

C. C. Elliott, a former C.P.R. civil engineer and more recently proprietor of the Triangle Motors, a Brooks garage, has been appointed to succeed E. G. Turner as police magistrate at Brooks.

Rev. Dr. Bryce, new Moderator of the United Church in Canada, is well known in Newfoundland and in fact was nominated for high office by St. John's Presbytery. He came to Newfoundland from Scotland in 1903 and served 3 years at Bay of Islands, from where he proceeded to Toronto to finish a college course. He was also pastor of Wesley church, St. John's, for a short period. He married Miss Julia Woods, daughter of the late Hon. H. J. B. Woods, Newfoundland's former postmaster-general.—Newfoundland Twillingate Sun.

The old church building at Frank, erected during the pastorate of Rev. W. T. Young, had a narrow escape from fire which on Saturday afternoon destroyed an adjoining building which housed the Frank fire-fighting equipment. An alarm was made, and the Blairmore fire department was notified. The latter arrived and succeeded in quenching a blaze that had taken a hold on the roof of the oil church building. This building was erected as a Methodist church at Frank. The building is at present being occupied for Sunday school and religious services, and as a community hall. This fire is believed to have been of incendiary origin, as was also a fire discovered a few days previous in the old Dypoll grocery store building. The police are investigating.

"Serve the Church that the Church May Serve You."

## CENTRAL UNITED CHURCH

Rev. Albert E. Larkie, Minister

Services Sunday next:  
11 a.m.—Senior Sunday School and Adult Bible Class.  
2 p.m.—Junior Sunday School.  
7.30 p.m.—Public Worship.  
Wednesday—8 p.m., Prayer Service.  
Friday—8 p.m., Group Fellowship.

## ANNIVERSARY AND PIONEER SERVICE

The anniversary and pioneer service of Central United church will be held at 7.30 p.m. on Sunday, November 1st, when Rev. Robert Magowan, of Pincher Creek, will be the guest preacher.

## ST. LUKE'S CHURCH NOTES

Rev. A. S. Partington, R.A., Rector

Services Sunday next:  
10 a.m.—Sunday School.  
7.30 p.m., Evening service.

## THE SALVATION ARMY

Coleman, Alberta

Lieutenants Fitch and Frayn

Sunday services: Directory class at 10.30 a.m. Sunday school 3 p.m. Salvation meeting 7.30 p.m. Come and enjoy an hour in God's house.

Monday at 7 p.m.: Y. P. Legion.

Tuesday, 7 p.m.: Home League, all ladies are heartily invited to attend.  
Friday, 7 p.m.: Young people's meeting.

## WHEN? MR. ABERHART ASKS.

Premier Aberhart, of Alberta, has been asking his farmer audiences in the southern part of that province whether they want Alberta to pay the full interest on her bonds, or just half of it as his government has decreed. He gets the answer he would naturally expect: Pay only half.

But, after all, ability to pay is a factor in such a decision, and as to that his audiences can hardly judge. Another factor is the future credit of the province, a consideration not likely to be present in the minds of those who make hasty answer. They are guided, no doubt, by the thought: Less interest, less taxes.

When only one side of a case is being presented to an audience of supporters, the speaker who asks a question is not likely to be disappointed when he expects an answer favorable to his own views.—Toronto Daily and Star Weekly.

Malcolm Morrison, one thousand per cent sports booster, who now lives in Wetaskiwin, but formerly in Coleman, won three pools in the world's baseball championship series.

Rev. Dean M. A. Harrington addressed the Fernie Council No. 2206, Knights of Columbus, on Monday evening, the theme being "A visit to the Shrine of St. Anne de Beaugre, Quebec," in which he gave a description of the gathering of pilgrims for the feast of St. Anne this past summer. He pictured the winding roads from the City of Quebec to the shrine, the statue of St. Anne bathed in the glow of flood lights, an assembly of people so great that the church had to be left open all night that those who were unable to find accommodation for themselves might sleep in the seats, and the two-hour parade of visitors carrying candles, in which so many participated that the first to go were back at the chapel before the last had started.—Ex.

## Year-Round Fire Prevention

Fire prevention week has come and gone, but fire hazards are still extant. If, however, the lessons learned during the recent fire prevention week's campaign are taken to heart and borne in mind, the risks of loss of life and property from this source should be minimized, in any event for a short time until memory withers.

In a country like Western Canada, however, fire prevention week should be every week the year round, so far as the individual is concerned, and certainly from October 1, when hard stoking commences, until about April 7 when furnaces and stoves are extinguished for a short summer season.

As indicated at the outset, the campaign, while impressive, is but a vanguard of the importance of care and precaution in the handling of fire. It may be vivid during the course of a public campaign, such as accompanies an event like fire prevention week, they soon fade. Such campaigns serve a useful purpose temporarily, but whether they are effective permanently depends upon the receptiveness and retentiveness of the individual mind.

Moreover, with fire, as with everything else, familiarity breeds contempt. The continuous use of fire in the home or store, day in and day out for 24 hours of the day is apt to result in relaxation of precautionary measures against potential conflagrations. This, coupled with increasing impairment and declining efficiency of equipment as the long winter months drag towards a close, combines to enhance the hazards of loss from conflagration.

These observations are inspired by the facts which statistics of Dominion and provincial authorities and fire insurance companies and newspaper stories record.

Despite the annual campaign which is carried on with much vigor and great publicity by these combined forces in an effort to instill precaution in the public mind, the fire demon continues to take a terrible toll of life and property in this Dominion.

When it is reported that on the average, every day in the year one life is sacrificed and more than one person injured by fire and \$110,000 worth of property goes up in smoke in Canada, the phrase "terrible toll" assumes definite significance and gives graphic portraiture to the adage which says that "fire is a good servant but a bad master."

A daily loss of property of \$110,000 is equivalent, to approximately \$40,000,000 a year. The enormity of this sacrifice to the fire god can be better appreciated when it is pointed out that the figure is a close parallel to the Dominion government's contribution under self legislation in each of the years 1931 and 1934, the two years in which federal expenditure for this purpose reached a peak since the depression started. In 1931 the federal government's relief bill amounted to \$42,716,715 and in 1934 it was \$36,930,144, according to the Dominion Bureau of Statistics.

In other words, the people of Canada, on the one hand, are destroying annually \$40,000,000 of property as a result of their carelessness in handling fire and on the other hand, are, in heaviest unemployment years, paying out approximately the same amount for relief of unemployment, through federal taxation channels.

Much concern has been shown and is being shown over the large sums which the federal government has had to pay out in its efforts to grapple with the loss occasioned by unemployment and industrial and agricultural depression. Figures of expenditure for this purpose and articles dealing with various phases of the cost of unemployment and depression have been published almost daily during the past few years, yet but little is heard of the equally heavy loss occasioned by fire, except once a year when the annual fire prevention campaign is in progress.

And yet this heavy fire loss is more easy to cope with than the unemployment and relief problem. All that is required is the exercise of the same care the year round as that which people display in the handling of fire during fire prevention week when the subject is fresh in their minds.

It is not necessary to recapitulate here and now the lessons which have been taught during fire prevention week, the precautions which must be taken to ensure that loved ones will not be burned to death or maimed for life and to prevent the destruction of homes, barns or other buildings and their contents. If only people will train themselves to remember and practice these precautions and to maintain vigilance the year round, this tremendous toll of life and property can be reduced almost to zero.

### Threatened With Extinction

#### Caledonian Market in London May Close To End

The Metropolitan cattle market, one of the largest and most extraordinary of London markets, is threatened with extinction.

Commonly called the Caledonian market, it occupies 30 acres in Islington, North London. As a meat market it almost ceased to exist many years ago following the intensive importation of frozen meat and later of chilled meat, but of late years has revived considerably.

The celebrity which the Caledonian market has attained, however, is due much more to the extraordinary jumble of goods of all kinds, including livestock, which is assembled there every Tuesday and Friday.

Customers go there by the 10,000 and mere sightseers by the thousand. The small storekeepers of Islington have long felt jealous over the competition they endure through the market. Traders in the latter, they say, go there for two days a week, pay a negligible fee and undersell the permanent tradesmen of the district. It is maintained that the site could be used with advantage for working class flats, and thus assist in slum clearance in Islington.

#### Must Have Safety Glass

Through a ministry of transport regulation, all motor vehicles on British roads must have safety glass for their front windows and wind-screens after January 1.

First Schoolgirl: "Just fancy, I shall be fifteen tomorrow! Pretty, isn't it?"

Second Schoolgirl: "Oh, my dear, I'm grimmer than that by nearly a year!"

### Important To Doctors

#### Science Has Taken X-Ray Movies Of Human Body

The first successful X-ray motion pictures of the organs of the body in action were shown before the American Roentgen Ray Society in Cleveland. The movies, made with an amateur motion picture camera set in front of a fluoroscopic screen used by physicians to see the X-rays pass through the body, satisfy a wish which many medical men have had for years.

Dr. William H. Stewart, Dr. William J. Hoffman and Dr. F. H. Chislen of the Lenox Hill hospital of New York, presented the development with the comment that it is "probably destined to become an important division of Roentgenological investigation and diagnosis" as well as in teaching and other uses.

They showed a human heart beating, a throat swallowing food, a stomach and part of the small intestine digesting food, the lungs filling and a diaphragm falling and lifting in the rhythmic process of breathing.

### British Trains Punctual

The London, Midland & Scottish Railway has just set an enviable record for punctuality. A return issued at Euston showed that out of a total of 274,098 express and local passenger trains run within a recent four-week period 262,968, or 96 per cent, arrived at their destination on time.

A five-ton truck in England recently was driven 100 miles with solid fuel made from coal. An estimated fuel saving of 60 per cent was recorded.

### World-Hiker Paralyzed

#### Son Of Famous Explorer May Never Walk Again

John Carverth Wells, son of the famous explorer and who walked around the world in two years, may never walk again. At 25 he lies paralyzed in St. Pancras Hospital in London. After a gay and colorful life John Wells started a motion picture publication in London. He planned it, collected the news and the advertisements, and printed it himself. For months he worked from 9 a.m. to 4 p.m. One day he collapsed in his office. Within 36 hours he could not move any part of his body. He has recovered the use of his hands and his head. Courage and determination have brought him through, and he declares he will not give up the fight to walk again.

### World Reduces Accidents

More than 7,000 lives could be saved yearly through adequate illumination of major traffic arteries between cities. Paul H. Goodell, chairman of the street lighting committee, reported to the joint annual meeting in Toronto of the American Society of Municipal Engineers and the International Association of Public Works Officials.

### Ideals Of The League

#### Hon. R. B. Bennett Voices Appeal On Behalf Of League Support

Hon. R. B. Bennett, Canadian Conservative leader, told an Australian service club that the British Dominions must support any agency whereby the collective power of mankind prevailed against those threatening annihilation of the civilized world.

Mr. Bennett voiced a fervent appeal on behalf of the ideals of the League of Nations. "Because there has been a failure to realize the fullest hopes for the League, we cannot discard it in its entirety," Mr. Bennett said. "I refuse to believe Napoleon's maxim that God is on the side of the heaviest battalions."

The former Canadian prime minister said that while human nature had defeated the hopes for the League as enunciated by Aristide Briand, the ideal remained. "Although the League lamentably failed to express punitive power against an offending nation, the world must try again." He said that the British Dominions must support the League to this end.

Mr. Bennett asked Australians not to consider Canada as an appendage of the United States. "The choice of our nation laid down their lives on the fields of Flanders in British loyalty and Canada has no idea that any other nation exercises suzerainty or provides its protection. We are proud of our place in the Empire and conscious of our responsibility as being midway between Europe and Asia."

### Food Faddists

#### Freak Diets Turned A Starvation Course By American Doctor

The "freak diets" of the food faddists were termed a starvation course to "physical destruction" by Dr. Milton Bridges, diet expert of Columbia University.

There does not exist any fruit, meat, fish or other food which in itself is capable of reducing physical weight as much as 1-1,000th of a pound," he said in an address.

If there is one general deficiency in the North American diet today, he added, it is lack of protein. Middle-aged persons in particular are inclined to be anemic because they fail to eat enough meat, eggs, cheese, fish and gelatin.

"It is about time some of our old ideas were exploded," he said.

"The efficacy of fish as a brain food, lettuce to produce sleep, onions to cure a cold, parsley to increase fluid output, broth for strength, port wine and nutty nuts for blood building, celery to soothe the nerves, skim milk and bananas for reducing, and last but not least, an apple a day to keep the doctor away, have all been proved without foundation."

### Flight Of Birds

#### Have Been Trans-Atlantic Flyers For Centuries Centuries

When a man climbs into an aeroplane and hops across the ocean and into the headlines he is doing something that is countless centuries old. Birds have been doing this for ages, and it is not surprising that Dr. Frederick C. Lincoln, of the biological survey at Washington, D.C., has added that he was not bittling the accomplishments of human flyers.

But while man is aided by powerful machinery, compass and charts, Lincoln said the birds depended on instinct and abilities that have puzzled scientists for thousands of years.

The champion distance traveller known to ornithologists is the Arctic tern which nests in the cold regions near the North Pole, then flies across the Atlantic to Europe, and on down to the Antarctic beyond South Africa—an 11,000-mile trip—twice a year.

The golden plover, a bird about the size of the robin, is known to fly non-stop the 2,000 miles between Nova Scotia and South America over a landless route.

### New Smuggling Racket

#### Peacock Feathers Are Being Taken Into China From India

And now they're smuggling peacock feathers. Peacock plumage is highly prized in China, but in India peacocks are regarded as holy birds. The Indian customs act, forbids the export of the feathers of these "Children of the Gods."

Because of the good market in China for the feathers, many persons are engaged in smuggling them there.

They had been married just about two months. Lunch was in progress. "Darling!" he said suddenly. "This steak tastes funny." "Oh, yes, dear," she replied, "I forgot to tell you. I burnt it, so I put some vaseline on it."

## First Call for Ogden's!

You'll travel a long way before you'll find as smooth a fine cut as Ogden's. That's why this grand cigarette tobacco serves pleasure, and nothing else but. When you roll a cigarette with Ogden's and touch a light to it you're off on a non-stop run to full smoky enjoyment.

First call for Ogden's—then choose "Chicler" or "Vogue" cigarette papers. That's the complete menu for satisfaction in "rolling-your-own." And—the Cellophane-wrapped Ogden's package has the purple-slaying-opening ribbon for quick opening.

## OGDEN'S FINE CUT

P.S.—Your Pipe Knows Ogden's Cut Plug.

### Gold Production Gains

#### Production in Canada During 1935 Greatest in History

Gold production in Canada during July, 1935, advanced to 319,805 ounces compared with 316,670 ounces in June and 285,763 ounces in July a year ago. Production during the first seven months of 1935 totaled 2,087,014 ounces, an increase of 15.8 per cent over the corresponding period of 1934. The price of gold during July averaged \$34.91 per ounce, in Canadian funds, and valued at this price the Canadian output during the month was worth \$11,133,930.

Gold production in Canada during 1935 was the greatest in her history, both in amount and value. The output every month so far this year has been greater than in the corresponding month a year ago and indications point to a new high production record for 1936.

### SELECTED RECIPES

#### DUTCH APPLE PIE

5 or 6 tart apples

1 cup brown sugar

1 cup cream

Purify Flour pastry

1/2 teaspoon cinnamon or nutmeg.

Method: 1. Pare apples, core, cut into eighths and arrange evenly in deep pie plate lined with pastry. 2. Pour cream over apples and sprinkle with sugar and spice on top. 3. Bake in moderate oven 350 degrees for 30 minutes, or until apples are tender.

#### Made From Shell Cases

A violin made from empty shell cases of the famous French "75's" during the World War, which is played nightly in a London West End restaurant, is believed to be the only brass fiddle in the world. M. Tapponier, the owner of the instrument, said the violin was made behind the French lines at More de la Faux in 1917 to cheer up officers at mess.

#### Resemble Real Thing

Visitors detoured when approaching the farm home of Fred Wagner, near Spring Coulee, Alberta. A large patch of cactuses in his garden resembled snakes until closely inspected. One measured 60 inches in length and was called to present a perfect likeness.

### Increase German Army

#### Conscription To Raise Fighting Force To 800,000 Men

A widespread increase was ordered in the German military establishment as Nazi officials began conscription to raise their fighting forces to 800,000 men under the new two-year compulsory service rule.

Hitler, taking a leaf from the Kaiser Wilhelm system, decreed the two-year service Aug. 24 to become effective Oct. 1. The training period previously was one year.

The recruits are 21 and 22 years of age. Germany's war babies—parts of the classes of 1914 and 1915. They will be distributed among the land, air and sea forces and represent an increase of from one-fourth to one-third in the nation's armed strength.

### Just The Thing

Her newly elevated ladyship had just been introduced to a notable elocutionist, who had kindly volunteered to entertain the children at a local charity garden fête.

"It is nice of you to say you will entertain the children, Mr. Dunton-Greene. How shall I introduce you?" "Well, your ladyship, I usually recite extempore."

"Oh, 'Extempore!'" she gushed. "I know of no piece more appropriate!"

There are only two classes, those who wish they had enough to eat and those who wish they hadn't eaten so much.

## BROKEN REST

Getting up night after night, breaking your rest, will damage your health.

Burrowing, scalding, suppressed or too frequent passage warns of kidney and bladder trouble. It is dangerous to let these conditions go unchecked. Soothe and strengthen your kidneys and bladder with time-proved—

## BRITISH TROOPS ENGAGE ARABS IN SERIOUS CLASH

Haifa, Palestine. — Fighting took place on the slopes of Mount Carmel, as 1,500 British troops engaged a large force of Arabs in what appeared to be the most serious clash so far in the Palestine disorders.

Three Royal Air Force planes aided the troops in the fighting, which was still going on as night fell. Mortars were being used to shell the Arabs out of their positions of the rocky mountain side.

North Lancashire Infantry advanced steadily as the Arabs retreated from rock to rock.

Rifle fire and the booming of the mortars could be clearly heard in Haifa, which lies at the foot of the mountain where according to the Scriptures Elijah destroyed the prophets of Baal.

The slopes of Mount Carmel are covered with pine, olive and laurel groves and are dotted with rocky caverns, providing a highly advantageous defence terrain.

Jerusalem. — At least 16 men were killed or wounded in the fighting between Arabs and British troops on Mount Carmel, preliminary reports said.

The official report said none of the British soldiers or airmen had been wounded.

The list of Arab casualties mounted to 18 when another Arab band made a raid on the police station at Beit Deja, Arab town near Jaffa. The police wounded two.

Imposing swift punishment for several cases of sniping at troops, a military detachment surrounded an Arab village between Acre and Safed and demolished two houses.

### Madrid Hemmed In

Fascist Leaders Promise To Blow City To Pieces Unless It Surrenders. Burgos, Spain. — Fascist leaders promised "to blow Madrid to pieces" unless it surrenders to the advancing insurgent legions.

"We recommend that the civil population does everything in its power to make the government surrender," read circulars showered on Madrid from Fascist war planes.

"The greater the resistance the greater will be the attack," they read, "Madrid will be bombarded intensely from both land and air."

Fascist lines hemmed in Madrid on three sides with only the eastern sector open.

Steadily the southern and bottom side of the advance was stretched longer past Madrid. The strategy then was to march troops on this line due north, completely boxing the capital.

The insurgent juggernaut under General Francisco Franco rolled swiftly, bowling over town after town in its path, finally halting before San Martin De Valdeiglesia, whose fall the insurgent leaders expected momentarily.

### Study Prisons

Royal Commission May Investigate Conditions In Europe. Moncton, N.B. — The royal commission investigating Canadian penitentiary conditions may cross the Atlantic for a first-hand study of European prisons, Mr. Justice Joseph Archenbault, chairman of the commission, announced recently.

Prisons in the United States will be visited by the commission, the chairman asserted, and it was possible the investigators would go to England, France and Belgium.

Maritime sittings of the commission began at Dorchester, N.B., seat of the Maritime penitentiary.

### Empire Education

Urge Students From Canada To Spend One Year In English Schools. Montreal. — An "empire education" should be the goal of Canadian students, according to Dr. John Murray, principal of Exeter University and former member of the British parliament. In his founder's day address at McGill University, Dr. Murray urged students in the Dominion to endeavor to spend one year in an English school during their "impressionable age."

#### Arabs Arrested

Jerusalem. — The government moved to end sabotage by arresting 36 Arabs and accusing 15 more of damaging the Iraq Petroleum Company pipeline. Brigades have in the past continually destroyed sections of the pipeline and fired escaping oil.

## New Cunard-White Star Liner

Sister Ship To Queen Mary Of Larger Dimensions

Glasgow. — The new Cunard-White Star liner to be built by John Brown and Company will likely be 2,000 tons heavier and from 12 to 18 feet longer than the R.M.S. Queen Mary. It was revealed.

William Beardmore and Company of Glasgow, announced it had received the contract to supply hull castings for the new liner, which to date is known only as No. 552.

"The 552 is expected to have rather larger dimensions than the Queen Mary," the company said. "Its tonnage is likely to exceed the 80,773 of the Queen Mary by about 2,000 tons and to be from 12 to 18 feet longer. Thousands of workers throughout the country, as well as at Clydebank, will benefit by the liner's construction. In the case of the Queen Mary, 200 firms in 60 towns supplied accessories for the ship."

The new liner will be laid down on the same ways as those used for the Queen Mary. A contract between the Cunard-White Star Line and John Brown and Company was signed recently.

### Swedish Flyer Rescued

Forced Down Off Irish Coast After Atlantic Hop

Valentia, Ireland. — Forced down in the Atlantic on an attempted direct flight from New York to Stockholm, Kurt Bjorkvall was rescued by the French trawler Imbrin off the westernmost point of Ireland.

First word from the long overdue Swedish airman, who had not been reported since he took off from Floyd Bennett field, came in a wireless message from the trawler.

"Bjorkvall saved myself," it said. "Valentia is an island on the western coast of southern Ireland."

(Bjorkvall's flight ended, it was estimated, about 2,375 miles from New York and approximately 1,000 miles short of Stockholm, is goal.

### Cosmopolitan Clubs

Edmonton Convention Elects Officers For Western Federation

Edmonton. — Western Federation of Cosmopolitan Clubs re-elected Lovell Smith, of Saskatoon, as its district governor at its one-day convention. Other officers named were: Lieutenant-governor, A. C. McArthur, Calgary; secretary, Arthur Parkin, Saskatoon; treasurer, Herman Stevens, Calgary; board of managers, Clair Makolm, Calgary; W. R. Briggman, Saskatoon; Dr. H. P. Mulholland, Vancouver; Charles L. Gillis, Winnipeg; Herbert Hancock, Edmonton; F. Kenny, Calgary.

Mayor Joseph A. Clark, of Edmonton, was speaker at a dinner held by the federation.

### Happy With Soldiers

Lord Tweedsmuir At Home When In Company Of Military Men

Ottawa. — "All my life I have been happiest in the company of soldiers," Lord Tweedsmuir said in a brief address to the officers of the British army in the last half-century. One man he met in British Columbia, he said, was wearing an Indian Muttiny medal. The sight of a veteran, he added, "is a reminder of the extraordinary part played in war by the Canadian army."

### Awarded Victor's Trophy

Johannesburg, S.A. — Charles W. A. Scott, co-winner with Giles Guthrie of the Portsmouth-Johannesburg air race, was awarded the Victor's trophy at a dinner in his honor. Cheques totalling £6,000 have been mailed by I. W. Schlesinger, sponsor of the race, to the families of Max Findlay and H. A. Morgan, pilot and radio operator, killed when their plane crashed near Lake Tanganyika.

### On Advisory Committee

Edmonton. — W. D. King, Alberta deputy minister of trade and industry, was appointed chairman of the permanent advisory committee under the Trade and Industry Act when the committee met here. Several weeks ago Hon. E. C. Manning, head of the trade and industry department, announced personnel of the committee.

### Heavy Tourist Season

London. — Emerging from one of the heaviest tourist seasons on record, the United Kingdom counts \$135,000,000 spent here by visitors this year, according to travel authorities.

## Alberta University Head

W. A. R. Kerr Is Appointed As President To Succeed Dr. Wallace

Edmonton. — Appointment of W. A. R. Kerr as president of the University of Alberta to succeed Dr. R. C. Wallace was announced here under authority of Premier Aberhart. Mr. Kerr, dean of the faculty of arts and sciences at the university since 1914, will be the third president.

Dr. Wallace, who resigned this year to become principal of Queen's University, Kingston, had been president since 1928.

The premier stated the government had felt, as soon as it became known Dr. Wallace was to retire, that a comprehensive survey of the Canadian field of available men should be made before a decision was reached.

A very complete list was compiled, including several names from the local institution, and full information gathered concerning each, the statement said. After reaching a tentative conclusion he had consulted the board of governors, the deans, and several of the senior professors, only to learn that the opinion of all coincided with that of the government. "President Kerr then takes up his new responsibilities with the satisfaction of knowing he was the unanimous choice of the government, the board of governors and a large and representative group of the faculty."

## RUSSIA CLAIMS NEUTRALITY PACT BEING VIOLATED

Moscow. — The Soviet Union, in a communication, declared it would seek again a free hand in Spain unless Portugal, Italy and Germany immediately halt military assistance to the Spanish insurgents.

The note was delivered by Moiseyevich Kagan, Russian representative on the non-intervention committee, to representatives of the signatory countries in London.

"If violations are not stopped immediately, the Soviet government will free itself from any obligations to the agreement," the communication said.

Kagan specially charged Germany, Italy and Portugal with sending arms and war planes to the insurgents in direct violation of the international neutrality pact which they signed.

"The Soviet government," the note declared, "cannot consent to conversion of the non-intervention pact into a screen for concealing military assistance rendered the rebels against the government by some participants of the pact."

"The rebels now possess many bombing planes of German and Italian origin which did not belong previously to the Spanish army," it was charged, "and the testimony of witnesses proves that supplies of arms from Portugal continue."

Berlin. — Russia's charge that assistance had been given Spanish Fascists by Germany, Italy and Portugal was not mentioned in the German press.

Instead, the papers printed, under a Paris dateline, a story reporting the arrival at Alicante, Spain, of the Soviet steamship Neva, which was said to have unloaded a cargo under cover of darkness. The despatch said the shipment was declared by the vessel's officers to be 1,360 cases of dry fish, which proved to be rifles; 4,000 boxes in which there was said to be corned beef, but which actually contained cartridges, and 1,200 boxes of supposed hides, which proved to be cloth for uniforms and military belts.

## LEGION HEAD ILL

Brig-General Alex. Ross, Dominion President of the Canadian Legion, who has been ordered to rest for three months and has resigned from the War Veterans' Assistance Commission.

### Adult Education

Western Educationist Sees Value In Debating Clubs

Halifax. — Aims and advantages of adult education were reviewed here by E. A. Corbett, former extension director of Alberta University and now director of the Canadian Association for Adult Education, at a joint meeting of Halifax service clubs.

"There is no better way of getting young people off the street corners than by holding debates," the western educationist said. "There were more than 160 debating clubs in the province of Alberta."

Adult education provided means by which people might bring out talents in later life: helped those with little or no education; helped workers to adjust themselves to swiftly-changing industrial life and to acquire a sound philosophy of life.

Education of mature people was on the theory that "man has not one mental birth, but a series of mental rebirths throughout life, and that during each decade of his life, new powers and new possibilities come to maturity."

### State Socialism

Says Substantial Part Of Canada Is Subject To Regimentation

Oshawa, Ont. — William H. Moore, Liberal member of parliament for Ontario riding, told a service club meeting that government ownership "is only state socialism."

"We have an example in our railways, which own hotels, laundries and barber shops," said Mr. Moore, discussing government ownership. "Our central bank marks the coming of the economic state," he continued. "Do you realize that we are in a state socialism today? The relief situation is an aspect, when one-third of our income is distributed to keep alive others."

"A very substantial part of our country is subjected to regimentation. Names sometimes deceive us. Mr. Trotsky and Lenin once called themselves Socialists," he concluded.

### League Appointment

Geneva. — Hon. Norman Rogers, Canadian minister of labor, was elected vice-president of the maritime conference, being held in connection with the League of Nations assembly.

## FIRST LORD OF THE ADMIRALTY

Sir Samuel Hoare, coming ashore at Portsmouth after inspecting the Mediterranean fleet—an inspection to which the Italian press ascribed very ulterior motives.

## Relief Grants

Grants To The Provinces To Remain The Same

Ottawa. — Relief grants-in-aid to the provinces for the third quarter of the current fiscal year will be continued without change, Acting Prime Minister Ernest Lapointe announced. These payments, under the Relief Act for 1936, are subject to revision every three months but have been left unchanged since the start of the fiscal year April 1.

Other matters dealt with at the weekly cabinet council included works contracts and the trade agreement under discussion between a trade mission from Germany and the Dominion government. Mr. Lapointe said progress was made in negotiations with the representatives of the Nazi government, but much remained to be done before an agreement could be announced.

Relief grants-in-aid, initiated by the Bennett administration, involves the outright payment of fixed monthly sums to the provinces for direct relief, with the provincial governments making up any deficiency. During the last session of parliament an appropriation of \$26,000,000 was passed for this purpose.

Payments have been made since April 1 at the rate of \$2,345,607 monthly. Under the last administration the highest monthly rate reached was \$1,757,250 and soon after the present government took office a general increase in these payments brought the monthly total to \$2,066,218.

## DEFENCE POLICY FOR CANADA IS A LIVE QUESTION

Victoria. — In a statement, declaring Canada has become "defence conscious" in recent months, Hon. Ian Mackenzie, minister of national defence, said primary considerations are a development program for Canada's defence to the extent to which taxpayers are able to meet new burdens and new taxes.

Nature and extent of a program necessary for Canadian defence, he said, were questions for the government to decide upon the advice of its experts. "The question of new tax burdens is essentially a question for the parliament and the people of Canada."

Mr. Mackenzie said the defence policy which he had been given since taking office and by which he intended to be governed was based upon:

"The general interest of Canada. "The security and welfare of our Canadian people and Canadian homes. "Due regard for any obligations that may be ours."

"In other words, our defence policy for Canada is not a dictated policy. It is a policy for the defence of Canada in peace, or in the eventuality of war."

After reviewing the principles laid down at the imperial conference of 1923, he said, "The following are, therefore, our responsibilities:

"(a) Maintenance of international security. "(b) Preservation of strict neutrality, law and order, within our territorial waters in time of peace."

"(c) Protection of our coasts and sea-borne trade in time of peace. "The present government of Canada, he said, "is now and has been since assuming office acutely conscious of its primary responsibility for local defence."

Mr. Mackenzie said the question of national defence was now receiving wide attention through the country. "In recent months Canada has become defence conscious. That is all to the good; as the minister charged with responsibility in this matter, I welcome discussion."

"It was my intention to refrain from further comment on the matter until in the natural course of events I present the government's policy to parliament. However, in the current discussion, I have observed a great deal of misinformation and misunderstanding. There has been a tendency also in certain quarters to try to make a partisan point out of the grave problems of Canada's defence. This is deplorable and I am sure that the good sense of the Canadian people will give such tendencies a speedy check."

"Public opinion can function effectively only on accurate information, and, as the government will require the assistance of informed public opinion in dealing with the special problems that exist with regard to defence matters at this time, I feel I should point out the essential facts. Healthy discussion based on real understanding will be helpful to all concerned."

## WILL ESTABLISH AIR BASES ON THE PACIFIC COAST

Victoria. — "Substantial developments" in all three branches of the service, army, navy and air force, were forecast by Defence Minister Ian Mackenzie in an interview.

Many of the details of contemplated projects had to be worked out by experts but he said that under a tentative scheme a series of air bases might be established along the British Columbia coast. One would be at the south end of Vancouver Island, probably at Esquimalt; another would be at the north end of the island, either on the west coast or at Alert Bay; there might possibly be one at Prince Rupert and in the Queen Charlotte Islands.

The existing Jericho Beach air station in Vancouver would complete the system. Extensions to the hangar space there would go ahead.

Mr. Mackenzie said steps already had been taken to modernize Canada's air equipment with placement of an order from England of seven Blackburn shark planes.

### Monument To Currie

To Honor Memory Of Commanding Officer Of Canadian Corps

Montreal. — A monument to the late General Sir Arthur Currie, commanding officer of the Canadian corps in the Great War from 1917 to 1919, is to be unveiled in Mount Royal cemetery here Armistice Day, November 11. Construction of the granite memorial is being directed by a committee of former members of the Canadian corps.

In the foundation of the monument which will embody the "Cross of Sacrifice," earth from Vimy Ridge, the Somme and the Ypres salient is to be deposited. The stone erection will bear the following inscription:

"Erected by former members of the Canadian corps in memory of General Sir Arthur Currie, G.C.M.G., K.C.B., V.D., L.L.D., B.C.L., general officer commanding Canadian corps in the field, 1917-1919. Principal and vice-chancellor, McGill University, 1920-1933. 'They served till death—why not we?'"

### Debt Scheme

Saskatchewan Plan May Be Looked Into By Alberta Government

Edmonton. — Study of all details of the scheme by which debts in Saskatchewan drought areas were reduced will be necessary before any decision will be made by the Alberta government to apply for similar action in this province, it was stated here by provincial treasurer, Charles Cockcroft. "Before making any definite statement, I would like to make a study of the mechanics of the Saskatchewan agreement, to see how such action would fit in with our present plans for rehabilitation of the drought areas," the minister said.

### Resume Air Mail Service

Will Be Inaugurated Between Vancouver And Winnipeg In Spring

Vancouver. — An air mail service between Vancouver and Winnipeg will be opened some time next spring and a Canadian coast-to-coast service will be inaugurated probably on July 1. Hon. C. D. Howe, federal minister of marine and transport, announced on his arrival here.

The minister came to Vancouver from Seattle by plane, completing an air tour which took him to New York, Chicago, Dallas and Los Angeles.

### Order For Airplanes

Ottawa. — W. J. Sanderson, president of the Fleet Aircraft Corporation of Canada, said his company had received an order for 10 training aircraft from the department of national defence. He did not name the price which was understood to be about \$75,000. The Fleet factory is at Port Erie, Ont.

### Alberta Highways

Edmonton. — Hard surfacing of 1,100 miles of Alberta highways under a four or five-year program will be provided for in recommendations which Hon. W. A. Pallow, minister of public works, will submit to the cabinet for consideration as soon as possible, the minister announced.

### For Better Understanding

Rome. — First soundings for an understanding between Great Britain and Italy in the Mediterranean have been made in diplomatic channels, well-informed persons have stated.

## THE MAN WHO PAYS

The will to pay is hereditary, just as much as red hair or buck teeth. It is a common fallacy that a man pays his debts because he has money. This is not necessarily true. On the contrary, the matter of paying has only a remote relation to money.

On the one hand is your friend with abundance of money, who cannot be cajoled, threatened, beaten or gassed into paying the most ordinary debt.

On the other hand, the poor fellow without a visible dollar—you know him—who is Johnny on the invoice. Money has little to do with either case. It is the breed of the man.

The man who pays is the man who thinks in advance. He never flashes a roll; he does not drive a car and carry a mortgage at the same time; he does not hang up the butcher, or the grocer, for food that he cannot afford to eat; he never lights the fire without wondering where the coal man gets off. He never throws the Bull, nor pitches the bluff, nor gives notes, nor writes checks dated tomorrow, but when the bills come in he is there with the coin of the realm, God bless him.

Sometimes he feels sore at the rest of us. He does not see that he gets on any better than the fellow who skins as he goes. Still he goes on and on, pays and pays, simply because it is the breed.

And, after all, the World does think a lot of his breed. The man who pays is the bulwark of society. He is the balance wheel of civilization. He is the mainspring of commerce. Business blesses him and he has honor among men for all time.—Royer Magazine.

Death of two sisters, living thousands of miles apart, at approximately the same hour, was recorded with the death of Mrs. Louis M. Fraser, 77, of Kansas City, Kansas. When newspaper reports reached Peace River, Mrs. Julia Robertson, the sister, was being buried.

The Claresholm Local Press last week asked a pertinent question: "How will the interest cuts affect the Claresholm town debentures not yet due, but paid?" Like many other similar cases. We know of contracts entered into, requiring regular monthly payments, and where the purchaser decided to pay in full after a few months had elapsed what could have been spread over a year or more. To the average mind, he is just as much entitled to a rebate as the other probably less honest individual is to have his balance wiped off.

When Premier Aberhart visits Drumheller, it is to be sincerely hoped that he gives his audience a change from the everlasting political-religious bill of fare and tells the big crowd of believers and non-believers in his special Social Credit plan, which will no doubt greet him, just how his government is going to solve some of the pressing problems of the day. He has told the covenants what they are going to get and the non-covenants what they are not going to get so many times that the time for a real constructive address is overdue, and why not make Drumheller the city that is different?—Drumheller Review.

## Local and General Items

A Blairmore silent police officer was hit square in the eye by the tail end of an auto, and was nearly knocked over.

The second redemption period for provincial government scrip opened in Edmonton yesterday and closes tomorrow.

The Hungarians at East Coulee recently held a dance. We know of certain Hungarians, once in the Pincher Creek district, who were unable to attend.

Folks are wondering just what such an item as the music festival programme would look like if turned out in mimeograph or multigraph form. In appearance, not worth a cent.

Ras Haile Selassie Guegn, son-in-law of the Negus, was deposed from the governorship of the Tigre Province, so in revenge he went over to Mussolini ten months ago, and as a reward for his treachery received from the hands of Il Duce the governorship of his former province.

A new hotel, to be known as the "Italia," is being erected at Cranbrook. Its estimated cost is \$10,000. Alphonse Fabro, of Kimberley, a former Blairmore boy, has the contract. The building will have two beer parlors, one especially fitted up for the serving of refreshments to ladies.

Mrs. C. D. T. Beecher has returned to her home in Macleod after enjoying a ten weeks' vacation, three weeks of which were spent at Coeur d'Alene, Idaho, and the remainder of the time at Vancouver. While at Vancouver she had as her guest, her daughter, Mrs. J. B. Wilson, of Blairmore.—Macleod Gazette.

The Drumheller Kinmen's Club has retained the services of Miss M. Mahoney, of Munson, graduate of the Holy Cross hospital, Calgary, as part time nurse to visit throughout the Drumheller municipal hospital district, doing educational work, investigating tuberculosis suspects and assisting contacts. The expense is being taken care of by the sale of seals.

W. P. C. Fillingham, former accountant in the Alberta public works department at Edmonton, pleaded guilty to charges in connection with shortage shown in departmental books, and was sentenced to serve three years in Prince Albert penitentiary. While the sentences total three years, various sentences running concurrently bring the term to one year's servitude.

Apparently some business people feel they should not patronize The Enterprise, because it is a valuable asset to the community. But they will patronize anything that is no good to the community, even if it comes from outside. There isn't an institution in the town of Blairmore today that has worked harder and done more for the town than The Enterprise.

The death occurred at Brandon, Manitoba, on Wednesday morning, of Mrs. Marjorie Louise Carson, aged 31, wife of Robert Carson, Imperial Bank manager at Brandon. She was born in Cayuga, Ontario, and is survived by her father, G. R. Powell, and a brother, Ross Powell, in Calgary, formerly of Coleman. The remains were brought to Calgary, where interment in Burnside cemetery takes place this afternoon.

Mr. Sam Hodson, of the Okotoks Review, has developed as a statistician, and has arrived at interesting conclusions. He says if the population of Alberta is 780,000, it is only reasonable to suppose that half are children under 21. That leaves 390,000 adults. Social Credit authorities claimed at least 370,000 signing up for dividends and expected about 8000 more. This would leave only about 12,000 adults who did not sign, and this would have to include also our unutilized population. This is close enough to 100 per cent to satisfy anyone.

## Local and General Items

Alberta is suffering from Communism today, and apparently don't know it.

An address delivered in Edmonton a few nights ago could have been summed up and accomplished more in the words "Truth is supreme."

According to a statement of Premier Aberhart, Alberta may have to seek assistance from Ottawa to meet obligations maturing November 1st. Falling due in November are \$1,250,000 six per cent bonds.

After a week in hospital at Halifax, Inuvikshoo, an Eskimo brought from the north on the Nascope, could count ten and play cards. He knew no English when he arrived. Probably by now he would have another great feat to his credit—able to master swearing.

Capt. Robert Bartlett in his schooner, or Effie M. Morrissey has returned to New York from his tenth voyage in that vessel to the Arctic. The schooner brought two musk ox calves and hundreds of species of birds, fish and flowers. Ten youths, who paid \$1,000 each for the cruise, were greeted on landing at New York, and expressed themselves as being very pleased with Greenland.

We were told at Pincher Creek a few days ago that barbers there had adopted the 35-cent rate for haircuts. Well, of course, there's a higher freight rate westward; but, then, on the other hand there is a cartage fare covering the 2½ miles from Pincher Station. These are matters that Mr. Aberhart, Mr. Manning, Mr. Duke and Mr. Taylor should have gone more closely into.

Mr. Curry left by Tuesday's train for Calgary, where he will consult a specialist.

Mr. and Mrs. C. M. Larbalestier and young son spent a few days in Calgary during the week.

Word comes from the boundary at Kingsgate, B.C. that cars crossing the line in 1936 reached a total of 4,150 in excess of last year, and a gain of 19,718 in passengers. Number of cars in 1936—19,272. In 1935—15,122. Number passengers in 1936—68,949. In 1935—49,261.

The provincial government announces there will be four credit houses established in the Crows' Nest Pass. For many years the merchants have been doing a big share of that work—probably in a bigger way for the persons who never intended to settle.

LOCAL VOTERS, take notice: Only two more weeks in which to register for town voters' list. Get your name on the list and be sure you are qualified to vote at the next municipal election. Note: This notice is not being paid for, but is being inserted by The Enterprise in the interest of the town at large.

Police, ambushed near Crossfield, succeeded in capturing two men believed to have been connected with one or more holdups and petty larcenies at Calgary. They were captured after an attempt to rob a Crossfield Chinese restaurant. In the chase one of the men was shot in the arm by a police officer. The pair were brought back to Calgary to await preliminary trial. A third bandit is still at large.

"I always use Quaker Flour and the Quaker Easy Method of Baking," says Mrs. J. Whitmore, Cranbrook, Man. "It saves so much time, trouble and work and I find I get more uniform and better results."

## COWLEY HAPPENINGS

Duart Smith, north of Lundbreck, lent his house on Friday night for a very well attended dance, held in aid of St. Martin's church fund.

Mr. John Shevens, of Bellevue, preached a stirring sermon in the United church on Sunday last, taking his text from Ecclesiastes XI-9. A large congregation was present.

The Ladies' Aid of the United church held a very successful tea and candy sale in the Masonic hall on Saturday afternoon last. The tea tables, which were tastefully laid with beautiful linen cloths and fancy china, each bearing a bouquet of cut flowers, lent a very festive spirit to the occasion. The weather was ideal and the large crowd in attendance spent a very enjoyable time.

On Friday evening last, a dance in aid of their Christmas Tree fund was held at the Tanner school house. A jolly time was reported.

Mrs. E. S. Easterbrook and son Cyril spent a few days recently in Calgary.

After a lengthy illness, Mrs. Henry Franz passed away at her home here on Wednesday. Funeral service was held in the Catholic church this morning, (Friday) with Rev. Father O'Sullivan officiating. The remains were laid to rest in the Cowley cemetery.

## Don't Sleep On Left Side—Affects Heart

If stomach GAS prevents sleeping on right side try Adierika. One dose brings out poisons and relieves gas pressing on heart so you sleep soundly all night. Blaimore Pharmacy.

## NOTICE TO CREDITORS AND CLAIMANTS

IN THE MATTER of the Estate of Mike Panik, late of Blaimore, in the Province of Alberta, miner, deceased.

NOTICE is hereby given that all persons having claims against the estate of the above named Mike Panik, who died on the 9th day of August, 1936, are required to file with the undersigned Executrix by the first day of December, 1936, a full statement duly verified of their claims and of any securities held by them, and that after that date the Executrix will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to her knowledge.

Dated this 10th day of October, 1936, at Blaimore, Alberta.  
TESSIE PANIK, Executrix  
Blaimore, Alberta  
By her Solicitor,  
J. E. GILLIS.

## BELLEVUE HAPPENINGS

Mrs. Thomas Smith was a Calgary visitor for a few days, returning home on Monday.

Albert Christie was a Thanksgiving visitor to Lethbridge.

Mrs. W. Goodwin, who has been in Calgary for the past six weeks, returned home on Monday night.

The Women's Auxiliary of the B.E.S.L. held a very enjoyable whist drive and dance on Friday evening. Prizes were won by Mrs. W. Cox, ladies' first; Mrs. W. Beck, second; J. Paul, gents' first; W. Hampson, second. After a dainty luncheon, dancing was enjoyed till midnight. The door prize was won by W. Hampson.

W. Harvey, of the Royal Bank staff, was a holiday visitor at his home in Lethbridge.

Miss Esther Chiarovano, who is teaching south of Taber, was a holiday visitor with her parents here, Mr. and Mrs. George Chiarovano, and returned to her duties on Monday.

## HILLCREST HAPPENINGS

Mrs. R. Crichton, Miss Peggy Crichton, Miss B. Davies and Miss N. Royle (of Blaimore) motored to Calgary last week.

A wedding of local interest was solemnized at St. Stephen's church, Calgary, on Saturday afternoon, when Miss Emily Strachan and Mr. John Collins were the contracting parties. Both were former teachers on the Hillcrest staff. Mr. and Mrs. Collins will make their home in Calgary, where Mr. Collins is now teaching.

Mrs. R. Brown entertained a number of friends at her home on Wednesday evening.

Mrs. H. McVicar has returned home from an extended visit to the Maritime provinces.

Mrs. S. Marshall is visiting in Calgary this week.

A fairly successful whist drive was held in the Catholic hall on Friday evening, it being the second of a fall series. Prizes were won by Mrs. D. Grant and Mrs. M. Hamalak.

Misses A. Martin, E. Sharetta and B. C. Sellon were Calgary visitors over the week end.

Mrs. A. Cassagrande, Miss Vincent Cassagrande and Ambrose motored to Edmonton last week.

Mr. and Mrs. Brushett, of Edmonton, are guests here of their son and daughter-in-law, Mr. and Mrs. W. Brushett.

Mrs. B. Pride is a patient in the local hospital, having undergone an appendicitis operation last week.

Mr. and Mrs. Joe Atkinson motored to Lethbridge last week.

The local Rangers and Guides held a social-evening on Tuesday of last week. The girls took part in a short programme, and then Mrs. Henderson was presented with a picture from the two groups. Mrs. Henderson left last week end for Vancouver, where she will visit for some time.

Dr. and Mrs. G. Blair Rose were Edmonton visitors over the week end.

The local junior baseballers defeated Blaimore here on Sunday.

Mr. and Mrs. J. Ironmonger and family were Lethbridge visitors last week.

Joe Louis knocked out Jorge Brestia in three rounds at New York on Friday night.

Small child, to her mother, after they had passed a man in plus-fours: "Oh, look, Mummy, there's a man with puffed sleeves on his legs."

God help the man or woman opposed to Social Credit principles who comes before a Social Credit magistrate. The reason we say "God help the man or woman," is because during the last century we have been interested in politics and political parties in this our native land, we have never known, heard of or read of any political party which has been more prejudiced, biased and intolerant against those who do not see eye to eye with Social Credit leaders and the rank and file than the Social Credit political party of this province.—Redcliff Review.

## DEBT TAKES A HOLIDAY

"Mr. Aberhart's wholesale reduction in private debts take no account of ability to pay, and there are, no doubt, many who can and should pay," says Canadian Business in its leading editorial for October. "The reduction of those debts, moreover, which represent people's savings, will result in decreased purchasing power and deflated wealth values for those individuals and institutions whose incomes depend upon the stability of such values. Economic activity and re-employment will be retarded at a time when recovery in the Dominion is gathering momentum.

"The obligations which are thus to be written off by this legislation were contracted for in good faith and such one-sided alteration of debt obligations is destructive to the confidence of private business both in Canada and abroad. Business today is based on confidence and such legislation shakes and weakens that confidence both at home and abroad, where lie the markets for Canadian products.

"Moreover, if such confiscatory measures are allowed to continue unchecked, a financial boycotting by the money markets of the world is not unlikely, while traders, either in Canada or elsewhere, selling goods to Alberta merchants and importers, will begin to wonder whether they'll ever get paid—not a very good inducement for business.

"What is even more serious is the fact that, access to the courts by the individual is denied in the case of much of this financial legislation. The final arbiter in many cases is the Al-

## A WORTHY APPOINTMENT

The Review has criticized Premier Aberhart's actions and policies frequently and expect unfortunately to have to do so again. We have criticized them because we believed them to be unjust or not in the best interests of the country, and not because we are of a different political party. As a matter of fact, we don't care a rap for any political party. We never knew one yet that didn't put the interests of the class or party it represented ahead of the interest of the country.

It gives the Review great pleasure this week, therefore, to be able to praise Premier Aberhart for something he has done. In appointing Dean Kerr, the senior professor at the University as its president, he has made the wisest choice possible and has not only got a man thoroughly fitted for this important post, but has recognized the principle of promotion. Premier Aberhart's action will not only meet with general approval, but it sets at rest many idle rumors which are floating round and will inspire more confidence in the Premier among the citizens of Alberta.—The Okotoks Review.

bertha Government or its administrative appointees, who in effect become both plaintiff and judge. The legal right of appeals to the courts guaranteed by British justice to every Canadian citizen is taken away—a prerogative which the British people have fought for, clung to and cherished throughout the centuries.

"As we see it, the effect of the

whole trend of legislation is to destroy Canadian savings, to repudiate contracts, to create a lack of confidence, to reduce wealth and capital values, to create unemployment, and to flaunt injustice before the eyes of a democratic people. In fact it will entail hardships on Alberta citizens—the very people social credit legislation is supposed to relieve.

"Social Crediters have been in power long enough to know now that the Province has not achieved her traditional progress by means of un-

tried theories or by making the people the wards of political agencies.

"We appreciate the impatience in Alberta for the return to better times, but the introduction of speculative non-democratic remedies can hardly fail to retard the recovery for which the basis is already laid all over the country."

"O Ye Cabinet Ministers of Little Faith—Why Do You so Lovingly Cling to Canadian Currency on Pay Days?"—Ex.

# Policyholders Own the "Assets" of Life Insurance Companies

As a great co-operative enterprise, Life Insurance has built up Assets in Canada totalling, approximately, two billion dollars. Yet these Assets are relatively small when it is realized that they are jointly owned by about 3,500,000 policyholders—one-third of Canada's population.

On the average, each policyholder owns \$571 as his share of the total Assets in Life Companies operating in Canada. Obviously, the great majority of policyholders are men and women of ordinary means—thrifty people who, year by year, have entrusted to Life Insurance part of their savings so that they may have financial security against the uncertain future.

These policyholders represent the best type of Canadian citizens. They have sought to preserve their financial independence, and,

as thrifty citizens, neither they nor their dependants are ever likely to become charges upon government or municipal relief.

To protect the interests of these 3,500,000 Canadian policyholders, Life Insurance Companies have invested their Assets in government and municipal bonds—in first mortgages—in public utilities and industrial enterprises—and in other authorized securities.

The soundness of the Investment policy of the Companies has been tried and proven during periods of severe financial stress. Governing and corporate bodies in which policyholders' moneys are invested have, until recently, maintained the integrity of their obligations. This has made it possible in turn for the companies, in their capacity as trustees for the policyholders, to fulfill every obligation guaranteed by their policies.

Now, however, there is a growing tendency to repudiate, by legislation, public and private debts, regardless of the debtor's ability to pay. Legislation which tends to destroy the ownership of public and private property places an unjust burden upon life insurance policyholders.

## Thou Shalt Not Love

— A NOVEL BY —  
GEORGIA GRAIG

### CHAPTER VII.—Continued

He answered her as swiftly: "I'd know better than to use my regular line with you! Please give me credit for some good sense."

Starr could not have told why it was, but suddenly she felt her eyes drawn away from her dance partner as though toward a magnet. A little to one side of the room, Michael Fairbourne was standing alone, watching her. Handsome, debonair, He smiled when her eyes met his, and his own gray eyes spoke a message.

"They said, 'Well done, Starr!'" He was applauding her as he might have applauded an actress who was giving an extraordinarily good performance. That was all she meant to him—'What was it he had said?' "All I ask is that you keep your name in the headlines!"

He was pleased to see her making a hit with Lance, because any new flame of Lance Marlowe's was bound to be the subject of plenty of conversation—and newspaper copy. And every mention of her name by word of mouth gossip, through the tender mercies of the columnist, or as straight news would send the sales of his book soaring.

Suddenly within Starr Ellison was born an angry resentment against Michael Fairbourne. How dared he stand there so smug and self-satisfied, watching her carry on her pitiful mockery? What did he know of the reasons of desperation which had urged her to be his open sesame to riches via the publicity route? He was making her dangle on the end

of a string like a puppet, and adding the supreme insult of applauding her gyrations. How dared he!

No, that was not quite fair. There was a two-sided bargain. Though he could never guess the reason for her acceptance of his offer, he had made her understand only too well what he expected of her. She, in her desperation, had been glad enough to accept his offer. How could he have known that association with Michael would stir so much of bitterness in the depths of her? How could she have guessed, for one wild moment, how it had come to be that sometimes when he was alone with her in that Egyptian penthouse which was the result of his crazy dreams that there would come times when she was afraid to trust herself to speak? How could she ever have guessed anything of that electric quality in the flame of him, that too often showed in his gray eyes when he did not imagine it, and that sent fiery signals dancing along through her veins?

Oh, it was going to be hard to play the game to the end—so very hard! But play it she must, and would. Yet it took all that was in her sometimes to keep from feeling when they would be talking together over some point and he would be so close to her that she could hear his heart pounding. She would have to hold onto herself to keep from swaying.

Her lids drooped over her eyes so that neither man could see them. Starr answered her own question. Life had been a question before. Now there was a new one—the question of what to do when love came unbidden. She knew what the answer was. She must learn to skim the surface of life as Lance Marlowe did.

She turned out the man whose arms encircled her, suddenly feeling the need of his worldly philosophy. He was smiling at her as the music stopped. He said:

"Have a little drink?"

"Don't they always say, 'Neither

I'll drink won't do you any harm?'" Starr laughed, but shook her head. "Me—I'm not so sure."

But he was leading her toward a partly concealed bar, elaborately fitted up in modernistic blue and silver. Again Starr shook her head faintly. He persisted. "Do you good. A little drink softens life's sharp edges."

She gave a queer little laugh. "But my life hasn't any sharp edges," she lied.

Lance's restless eye probed. He retorted, with a keenness of perception that was almost uncanny: "Nonsense! Everybody has sharp edges!"

"Even you?" she parried.

"Even I!" he mocked. "Most particularly I, because I fear you are not going to fall for me as rapidly as I had hoped."

That destroyed their seriousness. Suddenly Starr was laughing again, skimming the surface.

A gay little group was gathered around the bar. Stephanie was there, but Starr did not see Michael. Lance glanced around as he found a high stool for Starr, calling to the bartender: "Champagne!" To the group at large he suggested: "Join me! How about us making a community toast? A toast to—whom?"

A blond man whose hair was tousled and dress shirt airy veered away from the bar and waved his glass. He was gloriously drunk, and one moment later it was quite as plain that he had been participating in a conversation that had for its subject Starr Ellison and the debut party being given in her honor by her publishers. The bartender was pouring the champagne. The blond man boomed out:

"A toast! Sure we'll give a toast! Let's all drink a toast to the newest and loveliest chateau of Lance Marlowe's penthouse—Starr Ellison. Long may she wave!"

The glass dropped from Starr's nervous fingers and splattered against the bar. Stephanie giggled, breaking a tense silence. Her eyes clashed with Starr's as she lifted her glass and drank deep. It was a deliberate insult.

The drunken man's words roused in everybody's mind the same thought; that the man in his cups may have known whereof he spoke, and that in wine there is truth. Very likely he knew that Lance intended to make Starr his mistress; that perhaps she had already agreed, so that it was no longer a secret. It would be in character. Her reputation was against her.

Lance said quietly, as he advanced a threatening step, his face clenched: "Take that back!" The drunk away-

ed on his feet defiantly and leered knowingly, his glance wavering from Starr to Lance, and back again.

One of the girls squealed: "Oh, a fight!"

Stephanie's high voice cut in: "A fight, yes! For the honor of a woman who doesn't know what the word 'miserable' means!"

Lance hesitated in his attitude of threatening, glanced one at Starr and then showed his good sense. He grasped the obnoxious blond insulator by the arms and led him outside. Starr found herself trembling like a leaf. Never in her life had she felt quite so alone and friendless. No one approached her. But everything had caught up with her in a rush, overwhelmed her. She was glad Michael was not there to be a witness to her humiliation, and then in the next breath was sorry that he was not. Had he seen, perhaps he might have been—no, he wouldn't be sorry. Why should he be? It was all good publicity, and that was what he wanted. That would have been all he could have seen in the entire episode. The human quantitative, or such a small matter as that Starr Ellison might have a soul that could be hurt—that would only be a small matter.

Almost immediately Lance Marlowe was back, swinging along jauntily, head high. As he reached her side Starr's lips formed the words:

"What did you do?"

He said carefully as a slow smile flickered across his lips:

(To Be Continued)

## Royal Mint Is Busy

Greater Demand For Coins From Banks In England

At the royal mint they are working overtime making more money. A new system came into operation recently.

Increased activity has nothing to do with coronation activities. It is entirely due to a greater demand for coins from the banks.

An official of the mint explained: "There are fluctuations in demand, and it is not always possible to find the real reason for some months."

"A demand at this time of the year, however, is almost certainly due to greater industrial activity, more employment, and consequently more wages."

Coins now being struck will bear the image of King George.

Although King Edward has approved designs for the new coinage, the royal mint will continue to make King George coins until the formal approval of the King is announced in a royal proclamation.

## Rattlemakes In North

Reptiles Reported Killed 75 Miles North Of Edmonton

Zoological circles were amazed at Edmonton when E. L. Logan of Rochester, Alta., came to town with a 26-inch diamond-back rattlesnake and a six-foot bullsnake and reported they were killed by his 10-year-old son, Lloyd, four miles north of Rochester. That town is 75 miles north of Edmonton and hundreds of miles north of the usual habitat of those kinds of snakes.

"We have never heard of either a rattler or a bullsnake being found farther north than Medicine Hat," said Dr. Winifred Hughes, acting head of the department of biology of the University of Alberta, when told of the find.

## Building Large Bank

The German Reichsbank is to be the largest building in Berlin. When two extension buildings are completed within the next two years, the banking offices will enclose 680,000 cubic yards—260,000 cubic yards larger than the palatial new Air Ministry of 2,500 rooms.

Handed over to foster-parents when a baby, a resident of London, England, who never saw his father, has been ordered to pay toward the support of his parent now on public relief.

Continued losses from the operation of railways in the Netherlands has made government assistance necessary, and the two large lines may be amalgamated.

The possibility of the Coronation ceremony being televised as well as broadcast is being eagerly discussed in British radio circles.

## 'Plane Grounded In Desert

Temperature Inside Liner's Cabin Reached 180 Degrees

How they replenished their drinking water supply with dew gathered in sponges from the aeroplane's wings was told by the passengers and crew of the Imperial Airways air liner Horra, when they arrived at Karachi, India, after being missing 30 hours in the Arabian desert.

The liner came down in the scorching waste after having overshoot its scheduled landing place of Bahrain in the dark.

If an R.A.F. aeroplane had not spotted the Horra through a break in the clouds as it was returning to Bahrain after a reconnaissance, it is probable there would have been several dead.

All the food left to the 11 passengers and crew was a few sandwiches, a little chocolate, a few bottles of water and mineral water, and a drain of whiskey.

There was a Bedouin village 20 miles distant, had they known, but it was impossible to move more than a few hundred yards over the blazing sands, under a heat which made the metal parts of the aeroplane impossible to touch.

The only living things to be seen were huge black scorpions.

By day the temperature inside the liner's cabin reached 130 degrees. At nightfall the passengers obtained relief by lying almost strapped under the lower plane, where a heavy fall of dew which dripped from the upper plane refreshed their parched bodies.

## Historic Anniversary

North Carolina To Celebrate Landing Of Sir Walter Raleigh

Most of us learned in school that Sir Walter Raleigh visited North America and took back the potato and tobacco with him to England. But a good many people would be stumped to give further particulars than this about his American adventure.

To such it will be interesting to learn that next year, on August 18, 1637, Roanoke Island, North Carolina, will celebrate the 350th anniversary of the landing of Sir Walter Raleigh and the founding by him of an ill-fated colony which was the first white settlement on the continent.

A settlement means homes, and homes mean children, so it was that on the above date the first white child in the New World, Virginia Dare, was born to Annanias and Eleanor White Dare, who had followed Sir Walter Raleigh overseas, as pioneers.

And, furthermore, the christening of the infant Virginia is said to have occasioned the first religious service in what is now the United States. The coming celebration at Roanoke Island, then, assumes both national and international importance and preparation for it are being made that are worthy of the occasion.—Quebec Chronicle Telegraph.

## Where Bicycle Is Popular

Number In England Almost Doubled In Five Years

A London letter in the Ottawa Journal says what will be to many the most surprising fact revealed by last year's traffic census is that the road vehicle which has been making the greatest advance in popularity in recent years is the humble push-bike. The figures show that the number of pedal-cyclists on our roads has almost doubled since 1931.

Though the bicycle is ubiquitous there are certain towns where it enjoys special popularity. Of these cities Oxford is believed to head the list, a fact which suggests that even in this age of motoring it is not every undergrad who can afford to keep his car. Southampton, a town which led notably in the first great boom of bikes and bloomers in the "Naughty Nineties," still possesses an exceptionally large number of cycling citizens, who, like their parents and grandparents, still turn out in hundreds to promenade the Avenue and Common.

The enormous number of cycles in use may possibly offset the impression gained from accident statistics that cycling is the most dangerous form of road transport.

## Did Not Earn Much

Plymouth's first labor lord mayor, H. M. Medland, has gone off the gold standard. He continued working at the royal dockyard during his year in office. But one week civic duties occupied so much of his time his weekly wage packet contained exactly eight pence.

Rooks have a bird language consisting of approximately 40 "words," or sounds with particular meanings.

Seeds of the sacred lotus germinated after having been kept dry for 160 years.

## THE HOUSEHOLD Baker

Mildred Mae McKenize, supervisor of The Ogilvie Flour Mills Institute of Home Household Science, will send free information on cooking, baking and housekeeping problems, upon receipt of coupon from a bag of Royal Household Flour. Address Mildred Mae McKenize, care of The Ogilvie Flour Mills Co. Ltd., Winnipeg, Man.

Ogilvie Royal Household Flour is triple-tested to help ensure your success in baking—tested for wheat quality before milling, for flour quality during milling and for baking quality after milling—all before you buy. What for bread, cakes or pastry, its uniformity and absolute dependability will simplify your baking to an amazing degree.

Get a bag today and try this tested recipe with Triple-tested Flour

**OTATMAL COOKIES**  
Temperature: 325°F.  
Time: 12 to 15 minutes  
1 cup shortening; 1 cup brown sugar; 1/2 cup milk; 2 cups Ogilvie Minute Flour; 3 teaspoons baking powder; 1 teaspoon salt.  
Cream the shortening; add sugar, milk and Minute Oats. Add flour, which has been sifted with the baking powder and salt. Call thoroughly, as this dough is very soft. Take out small quantity of dough and roll into a small ball between the palms of the hands. Place these balls on a greased cookie sheet about 2" apart; with a fork, press flat, first one way and then the other, as often as possible. On top of each cookie press in a small piece of red or green cherry. Bake in a slow oven 12 to 15 minutes. These cookies may be put together with the following quantities:  
1/4 lb. dates; 1/4 cup sugar; 1 cup water; 1 teaspoon lemon juice.  
Chop dates; add sugar, water and lemon juice. Cook until mixture is thick.

## OG LIVE ROYAL HOUSEHOLD FLOUR

## Little Help For This Week

Let the words of my mouth and the meditation of my heart be acceptable in Thy sight, O Lord my strength and my redeemer. Psalm 19:14.

The thoughts that in our hearts keep place, Lord, make a holy, heavenly throng.

And steep in innocence and grace the sense of each guard the tongue.

There is another kind of silence to be cultivated besides that of the tongue as regards others. It is silence as regards one's self, not permitting the imagination to dwell overmuch on what we have heard or said, or indulging in picture thoughts whether of the past or future. Be sure that you have made much progress in the spiritual life when you can control your imagination so as to fix it on the duty and occupation actually existing, to the exclusion of the crowd of thoughts that are perpetually sweeping across your mind. You may not be able to prevent these thoughts from arising, but you can put them aside, and by the practice of such control of your thoughts you will attain that spirit of inward silence which draws the soul into a close intercourse with God.

Japanese and Malays are being displaced in Australia's pearl fisheries by cable men following the invention of a diving gear that makes it possible to reach a depth of 240 feet.
